Description

INK IDEA – its visual solutions for business, its absolute responsibility for the final perfect result. We are a team of appreciable, competent, motivated and goal oriented printing and advertising area specialists who work as a fully assembled business engine. We search for uniqueness, opportunities, possible services, technologies and means that can create value and increase competitive advantage. We don't sleep on achievements: we treat successful work not as an achieved result but as a constantly continued, volatile process. We are the best and most committed to work printing and visual application solutions specialists, customers partners and colleagues in their daily work. Each of them comes to us with a specific problem which we solve with pleasure: we generate idea, create design, prepare for printing, choose printing materials, print, hang, apply, install, distribute, coordinate with the authorities; etc.

Business Line

Visual solutions: printing, graphic design, advertising production and project management
