Description

JSC "Logistics Strategy" was established in 2014. The company has developed considerable experience in the field of logistics with a young and energetic staff, so that each of them is characterized by professionalism and understanding of their work. The company specializes in international freight traffic, providing auto transportation, marine and rail transport, and can offer a comprehensive service for your cargo in Vilnius and Klaipėda (warehousing, cargo handling and customs documentation). We are located in an area that is strategically positioned to transit to the CIS countries, and both the land and the Baltic Sea transported goods are provided quality service and timely delivery to the final point. We specialize in transportation from USA, Europe to Central Asia, Caucasus, Mongolia and back. Furthermore we actively organize the multi-modal freight transportation services in the majority of the world's ports to the previously mentioned areas.

Business Line

Transport
