Description

WE ARE a fast-growing Swiss group dedicated to providing the biopharma industry, healthcare professionals and their patients around the world with better access to medicines while also increasing the value of pharmaceutical products by extending and expanding their life cycle. WE OFFER high-value market access and specialty distribution services through a unique infrastructure and geographical footprint. Our aim is to enable patients in key emerging markets to access specialty medicines through a combined approach of named patient access and full commercialization. The FarmaMondo Group is headquartered in Switzerland, and its geographical footprint includes operations in key countries across the Asia/Pacific, Middle East & North Africa, Russia & CIS, Latin America, Nordic and Baltic regions.
